● OPEN TO NEW OPPORTUNITIES

I lead AI strategy and build production AI systems with Python, LangChain, and RAG daily. I design multi-agent and agentic AI platforms that plug into real business tools, understand context, and make decisions autonomously. 16+ years shipping software • 4+ years deploying AI at scale.

CORE STRENGTHS

🏗️ AI Systems Architecture — Expert

Multi-tenant platforms with vector stores, LLM orchestration, ingestion pipelines, and production observability.

🌉 Business ↔ Engineering Bridge — Expert

AI strategy, roadmap, transformation — the "click" most developers miss. Done as CTO, Tech Lead at a NASDAQ company, and Head of AI.

🔧 LLM Orchestration & Agentic AI — Expert

LangChain, CrewAI, MCP, RAG, context engineering, guardrails — in production generative AI systems, daily.

🚀 POC → Production Delivery — Strong

Brain: whiteboard to multi-tenant prod in months. KeHE: 14× faster search. Polen: idea to 25M users.

👥 People Management — Expert

Nearly 20 people managed directly. Juniors, senior egos, distributed teams — from Curitiba to California.

📐 Scalable Platform Thinking — Expert

Multi-tenant isolation, reusable agent patterns, metadata-driven config. New Brain client = config, not code.

CAREER TIMELINE

Where I've *built things*

Head of AI & AI Architect

Jul 2025 – Present

8 Figure Agency · Santa Monica, CA • Remote

Lead design and execution of Brain — a multi-tenant AI platform connecting client tools (CRMs, ads, Slack, data warehouses). Define LLM strategy, evaluation frameworks, and production observability (Grafana, Datadog, LangSmith). Manage a team of AI engineers. Key result: 20—30 hrs/week saved per client through multi-agent automation.

Python | LangChain | CrewAI | MCP Server | Vector DBs | AWS | Grafana | LangSmith

Lead AI Specialist & Founder

Jan 2024 – Jan 2026

Otimiza AI · Curitiba, BR • Remote

Founded AI consulting practice delivering process automation and AI adoption roadmaps. Designed and implemented AI & automation strategies for clients across multiple industries.

Python | LangChain | N8N | Make.com | Vector DBs

Tech Lead & Architect

Jul 2022 – Jun 2025

KeHE Distributors (NASDAQ: KEHE) · Naperville, IL • Remote

Led e-commerce search transformation for an $8B+ food distributor. Selected OpenSearch on AWS; delivered 14× search speed and 2× sales conversion lift. Reduced B2B onboarding 15 min → 2 min. Managed multiple teams across retailer and back-office ops.

AWS | OpenSearch | .NET 8 | Angular | DynamoDB | PostgreSQL | Datadog

CTO & Co-Founder

Nov 2013 – Aug 2024

Polen — Corporate Donations Platform · Curitiba, BR & International

Built Latin America's first social impact Open API. Raised $550K VC, scaled to 5,000+ companies and 25M+ users, $1.5M+ donated. Managed ~20 people with OKR & Scrum. Migrated monolith to microservices. Selected for Start-Up Chile, DotForge (UK), and Yunus & Youth.

C# / .NET | Angular | MongoDB | Docker | Kubernetes | Google Cloud

CTO & Co-Founder

Nov 2016 – Jul 2017

Bonuts · Curitiba, BR

Remote · Global

Photo mobile app (iOS + Android) rewarding users for branded-frame posts. Brands paid per approved post. 10K users.

Xamarin | ASP.NET / C# | MongoDB | AWS

Middle Developer → Technical Lead

2008 – 2012

FCamara · Many To One · BuscaPé · MPS Informática · São Paulo & Curitiba, BR

E-commerce CMS for B2W Group (Walmart.br, Submarino, Americanas), anti-fraud at BuscaPé, enterprise software for TJSP. Grew from Junior to Technical Lead.
